

Announcing the Future of Communications Test Equipment...

**The R8000 Communications System Analyzer**  
**From General Dynamics**

- Frequency Range:** **250 kHz to 3GHz**
- Size:** **9.4" high x 12.7" wide x 7.5" deep**
- Weight:** **14 lbs.**
- Display:** **8.4" LCD, visible in sunlight, with wide viewing angle**
- Spec. An. Noise Floor:** **-120dBm**
- RF Input:** **50W continuous, 150W maximum**
- Remote Operation:** **Operate every function of the analyzer with remote operation software package.**

**SHIPPING APRIL, 2008!**

## The Revolutionary R8000: All the functions of a full-featured communications analyzer in a truly portable package.

- Spectrum Analyzer
- Signal Generator
- Sensitive Measurement Receiver
- Tracking Generator (optional)
- SINAD Meter
- Distortion Meter
- Modulation Scope
- Oscilloscope
- Frequency Error Meter
- FM Deviation Meter
- AM Modulation Meter
- Receive Signal Strength Meter
- Broadband and Narrowband Power Meters
- Audio Counter
- Audio Generator
- AC and DC Voltmeters

And more!

The innovative user interface of the R8000 combines menu-driven softkey navigation with the familiar, intuitive “zone” segmentation that has been so popular with users of General Dynamics test equipment worldwide.

Order the industry’s first truly portable communications analyzer by February 23<sup>rd</sup>, 2008, and GET a **THOUSAND DOLLAR DISCOUNT PLUS A FREE THREE YEAR WARRANTY FREE OF CHARGE! (\$2,250 combined value)**

<u>Item #</u>	<u>Description</u>	<u>Price</u>
R8000A	Communications System Analyzer, 1GHz	\$13,950

**\$12,950 with FREE 3 year warranty before February 23<sup>rd</sup>!**

### Options

R8-3G	Three GHz Operation	\$2,450
R8-Remote	Remote Control Software	\$1,250
R8-TG	Tracking Generator	\$950
R8-ESA	Enhanced Spec. An./ Oscilloscope	\$750
R8-CF	Cable Fault Locator	\$500
R8-SC	Soft Carrying Case	\$275
R8-3Y	Three Year Service Plan	\$1,250
R8-5Y	Five Year Service Plan	\$1,950
